(mailto:clinton.rebec@gmppc.com); Colleen Evans (cevans@hsf.ab.ca) **Subject:** Premier Stelmach - This is getting serious.

Good morning,

Our province used to be the economic leader in Canada and throughout North America and the world!!

Then, **Premier Ed Stelmach** chose to review our energy royalty structure to ensure that Albertans got our "fair share" of our energy wealth. We have seen the devastating effect of that royalty re-structure.

When I and others have questioned the Premier directly and various cabinet ministers directly and various caucus members directly they all point to a global recession as being the cause of the fall in Alberta's economy. **WOULD YOU PEOPLE PLEASE WAKE UP???!!!**

All of Canada and the rest of the world are in the same global recession (depression?) but somehow their economies have leapt beyond Alberta's.

I think Heather Douglas has captured the essence of the devastating effect of Premier Stelmach's royalty restructure. I don't know what Albertans need to do to get him and his cabinet and caucus to listen???

I don't normally show the names of people to whom I send messages of this sort in order to protect their privacy. Unfortunately, this time it is necessary to show names. If you people agree with what I'm saying, please let me know, and pass this email, or one of your own, on to your friends and associates. If you disagree with me, please contact me to show me where I am wrong in my assessment.

THIS IS SERIOUS. PLEASE GIVE IT YOUR CONSIDERATION AND SEND ME YOUR COMMENTS!

Hal Walker
